Subject: Application to Register Ravenna Army Ammunition Plant Underground
Storage Tanks (UST)

Dear Sir,

Attached is the completed subject registration permit application as required
by the Ohio Administrative Code Section 1301:7-7-35.

Please be advised that this latest registration submittal identifies fourteen
(14) less tanks under regulatory registration than the previous April 28, 1986
dated submittal made to your agency. The 1986 submittal listed thirteen (13)
underground tanks that directly supported steam heat producing facilities and
one tank, which was removed Sept. 1987, associated to a telecommunications
emergency generator. These fourteen tanks are determined to be excluded from
current regulatory standards.

This installation's contact for subject regulatory mandate is Thomas M. Chanda,
Environmental Engineer, phone 216-297-3221.

Sincerely,

RAVENNA ARSENAL, INC.
