RAVENNA  
Part I Section 9

DATA ON BUILDING

Locomotive Repair Shop  
47-40

Total Area  
Floor

			<u>Repair Pit</u>	<u>1st</u>	
1.	Total productive area	Sq. ft.	: 0	: 0	:
2.	Total non-productive area	Sq. ft.	: 380	: 7855	:
3.	Laboratory & testing area	Sq. ft.	: 0	: 0	:
4.	Office Area	Sq. ft.	: 0	: 0	:
5.	Cafeteria capacity	Number	None		
6.	Toilet capacity				
	a. Men	Number	110		
	b. Women	Number	None		
7.	Locker capacity				
	a. Men	Number	160		
	b. Women	Number	None		
8.	Design & construction details				
	a. Floor construction - Reinforced concrete				
	b. Floor finish (general area) - Concrete				
	c. Structural frame - Steel				
	d. Wall construction - Brick				
	e. Clear height - 32'-8"				
	f. Design limits floor loads - 1000 lbs./sq.ft.				
	g. Type of heating - Unit Heater, Steam				
	h. Type of cooling - None				
	i. Type of air filtration - None				
	j. Power distribution				
	1. Voltage - 115/208 A.C.				
	2. Type - Conduit				
	k. Type of lighting - Direct				
	l. Type of fire protection - None				
	m. Type of soil - Gravel, sand, clay				
	n. Type of foundations - Concrete				
	o. Design soil pressures - 6000 lbs./sq.ft.				
	p. Roof deck construction - Purlin support				
	q. Roofing				
	1. Type - Corrugated asbestos				
	2. Guarantee - 2 years				
	r. Roof insulation - None				
	s. Description of other process piping layouts - None				
9.	Notes of special features - None
